Profile

Communication and brand designer with 5+ years of experience — in the in-house design teams of major service brands (SBER / eApteka, DOM.RF) and at a creative agency. I develop and adapt brand systems and component-based guidelines in Figma and help scale them across channels: SMM, Telegram, blog, presentations, infographics, e-mail and out-of-home advertising. I create key visuals for ad campaigns, illustrations, patterns, special-project logos and merch, and prepare offline materials for print. In production I use 3D (Blender, Cinema 4D) and generative AI. I care about clean, considered visual solutions, attention to detail, and seeing projects through to results. English — C1.

Key skills

- **Brand design:** brand systems and component-based guidelines, brandbooks, logos, identity, patterns, rebranding
- **Communications:** key visuals & ad campaigns, landing pages & adaptations, e-mail, SMM, Telegram, blog, infographics, presentations, HR brand
- **Offline:** prepress, print production, out-of-home advertising (media screens, city format, metro), office materials, merch, booths & events
- **Graphics:** typography, illustration, patterns, motion design, retouching
- **Tools:** Figma (components, auto-layouts, libraries), Adobe Creative Cloud (Photoshop, Illustrator, InDesign, After Effects, Lightroom), Blender, Cinema 4D, Tilda, HTML
- **AI:** Weavy (node-based pipeline in Figma), Nano Banana, Midjourney, Recraft, ChatGPT
- **Languages:** Russian — native; English — C1; German — A2

Experience

Senior Communication Designer / Graphic Designer

Oct 2025 — present

eApteka (ex-SBER), e-commerce / pharma & healthcare — Moscow

- Produce the brand's day-to-day visual communications: e-mail campaigns, digital banners, in-app banners for the Wildberries app, landing pages, website design, SMM and HR materials, merch, and out-of-home layouts.
- In the first six months, delivered **key visuals for 10+ image-driven digital campaigns and 5+ out-of-home campaigns** (large media screens, city format, metro).
- Together with the design team, marketers and brand management, develop and maintain the brand system and take part in the rebranding as the ecosystem migrates (SBER → Wildberries and RUSS): adapting guidelines and templates and keeping visual consistency across the brand and the wider ecosystem.
- Introduced systematic work with generative AI: a node-based pipeline in Weavy (Figma) and Nano Banana **cut product-banner production time in half and reduced building a key-visual variant from 4 to 1.5–2 hours**, improving output editability and partially replacing 3D on simple tasks.
- With colleagues, building a Figma library of photo-style and 3D brand elements (Blender / Cinema 4D) and a node-based AI generation system for the brand's photo style.

Lead Communication Designer

Nov 2023 — Sep 2025

DOM.RF, financial sector — Moscow

- Together with a web designer, fully reimaged the branding of “MySchitaem”, DOM.RF's financial-literacy game (logo, graphics, color system, AI adoption), and ran it across 3 seasons, expanding the design system in Figma each season. Project communications reached **300+ cities, 30,000 participants and 90,000 stream views**.
- Created the logo and identity for the “Ipotechny Marafon” (Mortgage Marathon) special project; produced key visuals for marketing campaigns and digital ads (3D in Blender, AI tools Midjourney / Recraft).
- Built reusable component templates in Figma (auto-layouts and components) for the rubrics, cards and covers of the sprosi.dom.rf Telegram channel — still used by the team; created a guide system for article layout, semantic blocks, photo style and brand elements so colleagues could work independently.

- Developed the design-system guidebook for the sprosi.dom.rf website and the project brandbook.
- In tandem with an SMM manager, ran the design of the sprosi.dom.rf Telegram channel — its **audience grew from 2,186 to 32,000 subscribers**.
- Designed banners, landing pages and e-mails; illustrations and motion design; concept, layout and prepress for print and merch; booth and promo-event design.

Design Team Lead / Senior Brand Designer

Nov 2024 — Jun 2025

Shanti Creative Group, full-cycle marketing agency — Moscow

- Led a team of 3 in-house designers and 2 outsourced contractors: art direction, briefing and specs, concept sign-off, reviews and edits, process control.
- Contractor art direction: briefed photographers for landing-page shoots (a cyber club, a chain of kitchen stores), reviewed illustrators and 3D artists (an app with interactive maps), and oversaw video editing and motion for social media across 5+ projects.
- Created the logo, identity and patterns for the Shanti agency: brandbook, guides and branding materials; enforced visual-style consistency.
- As a brand designer, led complex projects (including the identity and landing page for the Kazanka Fest festival): 3D, AI, prepress. Presented and defended concepts to clients.

Graphic Designer, HR Brand

Jun 2023 — Oct 2023

Bank DOM.RF, financial sector — Moscow

- Created the social-media design code for internal communications and the HR brand; provided design support for SMM channels.
- Internal-communications design: web banners and e-mail campaigns.
- Layout and prepress for print materials and merch; booth and promo-event design.
- Presentations for internal and external events and training courses.

Graphic Designer, Corporate University

Oct 2022 — May 2023

Ingosstrakh, financial sector (insurance) — Moscow

- Developed and maintained visual communications for the HR brand and the youth HR brand; design support for the Corporate University's SMM channels.
- Created a Welcome book for new hires and a workbook for interns and mentors (onboarding program).
- Designed training courses, print materials and merch.
- Internal-communications visual code: e-mail campaigns and corporate-portal articles.

Graphic Designer, Continuing Professional Education Dept.

Feb 2021 — Oct 2022

Financial University under the Government of the RF — Moscow

- Designed presentations and training materials for CPE programs.
- Designed social media for CPE projects and presentations for events and speakers.
- Internal communications and corporate mailings; layout and prepress for printed educational and marketing materials.

Education

Financial University under the Government of the RF, Moscow — Graduate School of Management, Bachelor's, "Management: Business Administration" (taught in English), 2024

HSE University — "Management and PR in the Art Industry," professional development, 2026

3Dlab — "3D Designer," professional development, 2023
